Underground mining comes with its unique set of guidelines. Our fully enclosed mining baskets are designed to keep you safe from potential falling debris while the removable screen panels allow workers to still perform their work from inside the basket.

Customer Review

"At ML Crane Group we've had the pleasure of incorporating Lakeshore's man baskets into our crane operations on multiple occasions, and each time, they've proven to be an invaluable addition to our workflow. The attention to detail in their design, coupled with the robust construction, ensures both safety and efficiency for our team members working at height. The ease of use and reliability of these man baskets have consistently exceeded our expectations, making them a trusted choice for our projects. Moreover, the exceptional customer service provided by Lakeshore has made the entire purchasing process seamless and enjoyable. We highly recommend Lakeshore's man baskets to anyone in the crane business seeking top-tier quality and service."
